

blueorgy (67) ▼ (/@blueorgy) in emojis (/trending/emojis) • 3년 전 (edited)

Large list of Popular Emoji codes available for use on comments and post titles here on Steemit. These are a collection of commonly-supported Emoji that map to standardized Unicode characters except using Decimal instead of Hex. I am currently developing a small browser plugin / extension for multiple browsers that will allow the user to select the desired Emoji in Decimal format and add it into their comments (without copy and paste). While this is still in development I wanted to share the code needed to display Emojis here for reference and use.

### How To

### Post Title

- For adding Emojis to your Post Titles a Copy & Paste will actually do the trick.
- So make sure to select and highlight the desired emoji and copy it.
- Then paste it inside your post title

### Comments

- For adding Emojis to your comments you must select the entire code ex: 😁
- Then paste it into your reply comment box
- You will also see the actual Emoji in the preview box

## **Emoticons**

You do realize that the poo emoji is on the list right? I didn't make it up...was just commenting on the fact that it was in the posters list and thought it was funny. Would appreciate you removing your flag/downvote unless of course you would like to downvote/flag the whole original post for having the emoji in it? Thank you and peace out.

I'm a front-end web developer. You need help with this? I would really like to see a feature like this too. An instant click-paste code option. I wish it was integrated, but I could probably start working on an external script that would do this.

Hi @blueorgy (/@blueorgy), thank you so much for taking the time to put this all together so that the rest of didn't have to. I've got a question for you, have you thought about re-posting this? For those of us that hadn't seen this when it was originally posted because we weren't on steemit yet or just missed it...I think it is a pretty comprehensive list and it will help a lot of Steemians find that perfect emoji. :D If you do decide to re-post it I'd be happy to re-steem it for others to see as well and I'm sure I'm not the only one that would do so. :D

God bless you. :D Have an awesome day! :D

Hi Blueorgy, great post - I would love to have a copy of this post in my blog. Would you care to repost and I will resteem? Or, is there another way to tag this post for easy future reference?

I was wondering how to get my emojies working today and @wthomas (/@wthomas) kindly led me to this post.

https://steemit.com/emoji/@sirknight/emojies-on-strike (https://steemit.com/emoji/@sirknight/emojies-on-strike)

Thanks guys.

SirKnight.

Great post @blueorgy (/@blueorgy).

I applied your instructions here (https://steemit.com/guatemala/@wwwdotgotodotmu/room-withaview-in-guatemala-beyond-amazing).

I also explained how I inserted the emojis here

(https://steemit.com/emojis/@wwwdotgotodotmu/how-to-insert-emojis-in-the-title-and-text-s-body-when-creating-a-steemit-post)
